

WOODWARD, INC.

**SERVICE INFORMATION LETTER WG64170**

**ISSUED DECEMBER 4, 2015**

**TO:** Current subscribers of Woodward Component Maintenance Manuals (CMMs)  
**SUBJECT:** Non-Woodward Part Numbers in Component Maintenance Manuals  
**PURPOSE:** To provide instructions regarding the unapproved part numbers listed in CMMs  
**EFFECTIVITY:** All Woodward products

**DETAILS:**

Some Woodward Component Maintenance Manuals (CMMs) included additional part numbers in the Illustrated Parts List (IPL). These CMM's included a) Woodward part numbers, b) vendor part numbers and/or c) industry standard part (ISP) numbers. Only the Woodward part numbers meet all of the type design requirements. However, based on 14CFR 21.31, the other part numbers do not specifically meet all of the type design requirements. This Service Information Letter addresses the compliance required for the subject parts.

Woodward has reviewed the vendor and industry standard parts listed in the CMMs to evaluate whether these parts would impose a safety risk to the field. Parts were compared and evaluated against the type design. In addition, Woodward evaluated field data, the manufacturer's quality systems, and completed a safety analysis.

The resulting investigation verified that the subject parts currently installed on articles are acceptable and will not introduce a safety risk to the field. Woodward, with FAA concurrence, recommend that parts currently installed in articles are acceptable over the useful life of the part as defined in the CMM. Non-Woodward numbered items may not be used if not already installed, even if listed in the CMM.

The Woodward part number is, in most cases, identified in the Nomenclature field of the IPL. Table 1 lists the appropriate Woodward Part Number to be used instead of the vendor or ISP number.

**ACCOMPLISHMENT INSTRUCTIONS:**

For non-Woodward parts currently installed in articles, there is no action required.

Any non-Woodward parts not installed in articles are not allowed to be used in Woodward articles after the date of the publication of this letter.

The following table provides the approved Woodward Part Number to be used in place of the subject non-Woodward part number. The table also includes the applicable CMM document number.

**TABLE 1 - Woodward Part Numbers vs Non-Woodward Part Numbers**
